One of the best features of the podcast is The Human Torpedo and his tales from the Celtic wiki . In fact some might say that's the only decent feature of the podcast but those folk are all ugly and nobody talks to them at parties. There's something about The Human Torpedo's voice which combines brilliantly with Mogwai's The Sun Smells Too Loud" to bring the history of Celtic to life and to tell stories of the past which would otherwise have been forgotten. In fact they combined so brilliantly the Mogwai track is now a regular on the Celtic Park tannoy system.

And from almost the day and hour that the tales from the Celtic Wiki started we've had folk asking for a compilation and finally we've decided to relent. So here it is, in a K-tel stylee, THT and the Mogwai guys combine to present the best of the Celtic Wiki for 2011.

If you get a chance can you go onto Twitter and thank the Human Torpedo and Mogwaiband for their efforts?
