2-4-6-8 Motorway ! Since our last punters corner numbers have dominated the news. There were the 33 Chilean miners, the commonwealth games mantle for 2014 was handed over to Glasgow . Liverpool were, weren't, were, weren't, were… sold for over £300m whilst Dundee went into administration for the 2nd time in 7 years. We were also told that child benefit would be withdrawn from higher rate tax payers and the top 50,000 earners in the country would have reductions in their tax free pension contribution allowances. So the wealthy had benefits removed by the Tories and Labour complained?!?

Oh and Craig Levein fielded a team with 4-6-0 formation and then walked out on David Tanner on Sky when asked about it. We dodged a bullet there!

I said this last time out, and Rangers managed to score a 94th minute winner, but this is a pivotal week in the title race. An SFA disciplinary hearing was specially convened abroad so that any suspension of McGregor occurred before the Celtic game. As a consequence the “worlds’ greatest keeper” will be missing at Ibrox for the visit of Motherwell. Following that Rangers play Valencia and then come to Paradise. We MUST win the next two games – and just think, the glory hunters will be back for that one!

So a review of the stats makes me think a 1-0 is highly likely, but I'd feel a lot better with 3 first half goals and a 4th early in the second.
